

AT THEMBELIHLE SCHOOL AND ANGELS CARE CENTRE

many of our children are orphans, members of child-headed households, living with HIV and AIDS, either personally or with their caregiver or living with grandparents or relatives who survive on minimal state pensions. For others, their caregivers are largely unemployed and have moved from rural areas in search of employment. Their living conditions are very harsh and many of our children come from homes with no running water, electricity or sewage systems. Angels' Care Centre's mission is to, "To Break the Cycle of Poverty in the Umngeni Municipality by providing hope, love, safety and care to children and their families". The current goals of the organisation include aiding and empowering children through the provision of excellent, quality Early Childhood (grade RRR - R) education to 160 children, after school facilities for 120 youth that focus on homework assistance, life skills, empowerment initiatives, sporting programmes, a substantial feeding scheme, general health care assistance, along with crisis care for victims of child abuse.

ANGELS' CARE PRE-SCHOOL is the feeder school for Thembelihle Primary School and all students at Thembelihle have access to all the programmes run at Angels Care. Thembelihle School provides a holistic and multicultural education rooted in Christian values for 430 children of all backgrounds. We ensure a safe environment to learn and grow academically, physically, socially, emotionally and spiritually. We equip learners for life through an education that fosters innovation and

excellence, this is achieved through our STEAM (Science, Technology, English, Arts, mathematics) approach to education. This approach encourages pupils to think logically, laterally and creatively. Our well qualified and passionate teachers and staff partner with families in caring for the needs of the whole child beyond the classroom ensuring we give each child the necessary tools to confidently enter high schools and achieve success in every phase of their lives.

YOU CAN HELP US

CHANGE A CHILD'S LIFE THROUGH HOLISTIC EDUCATION.

Imagine a world where every child has the opportunity to unfold their potential, to **dream**, to **learn**, and to **thrive**. This vision lies at the heart of Angel's Care Centre and Thembelihle School, beacons of hope for underprivileged children yearning for education and a chance at a brighter future. We invite you to join us on this transformative journey by contributing in paving the way for an underprivileged child to attend primary school, nurturing their growth and igniting their potential. You can become a crucial part of a movement that seeks to level the playing field and foster a society where every child's dreams are validated and attainable. Angel's Care Centre and Thembelihle School are more than institutions; they are sanctuaries of opportunity, resilience, and hope. Your contribution can help fund not only a child's access to quality education but also a range of holistic support services that cater to their physical, emotional, and social needs. By offering these children a solid foundation today, you're building a stronger tomorrow for them and for our collective future.
